

Unit 9
Booster Lesson 14

WPS Day 5

Student Independent Practice Sheet (IP)

Directions: Use the Identify It strategy to find important information. Make the problem using the Draw a Picture Strategy and write the number sentence using stickies. Fill in the circle with the number sentence that best matches the word problem.

1. Emma has some cents to buy 7 toys for her kids.

She spends 9 cents and has 6 cents left over.

How many cents did Emma have to buy toys?

- $7 + 6 = 13$
- $16 - 9 = 7$
- $15 - 9 = 6$

2. Miguel goes to the library to get some books and 2 movies.

He goes to the store and buys 5 more books. Miguel came home with 12 books.

How many books did Miguel get at the library?

- $2 + 5 = 7$
- $5 + 12 = 17$
- $7 + 5 = 12$
